

CIERRA C. REYNOLDS, CPHT, CRCR, CSPR

HEALTHCARE REVENUE CYCLE | PHARMACY OPERATIONS | DATA ANALYTICS

Louisville, KY | 270-820-6234 | ccreyn04@louisville.edu | LinkedIn: Cierra Reynolds

PROFESSIONAL SUMMARY

Healthcare operations and revenue cycle professional with 8+ years of pharmacy experience, including nearly four years in inpatient hospital operations. Experienced in Epic-supported workflows, prescription claim adjudication, rejection resolution, prior authorization coordination, medication access, inventory controls, and cross-functional clinical support. Combines CPHT, CRCR, and CSPR credentials with hands-on analytics projects using SQL, Excel, Power BI concepts, and interactive dashboards to translate operational data into actionable recommendations.

CORE EXPERTISE

Revenue Cycle & Reimbursement: claims adjudication, reversals and rebills, denial trend analysis, payer requirements, prior authorization, reimbursement workflows, charge-audit support, documentation accuracy, HIPAA/PHI compliance

Healthcare Operations: inpatient pharmacy, medication access, Epic workflows, Pyxis, DoseEdge, inventory and utilization review, controlled-substance procedures, process improvement, stakeholder communication

Analytics & Technology: Microsoft Excel, SQL, Power BI, interactive dashboards, KPI development, root-cause analysis, trend identification, data storytelling, Microsoft 365

SELECTED HEALTHCARE ANALYTICS PORTFOLIO

Four end-to-end case studies built with synthetic, PHI-free healthcare data | SQL, Excel, dashboard design, KPI analysis, and executive recommendations

- Revenue Cycle Executive Dashboard: analyzed 2,000 claims across charges, allowed amounts, payments, collection rate, claim status, payer mix, service lines, and accounts-receivable aging.
- Claims Denial Root-Cause Analysis: evaluated 349 denied claims and prioritized denial reasons, payer exposure, service-line risk, denied dollars, and aging to support targeted prevention and recovery actions.
- Pharmacy Operations Dashboard: assessed 1,200 medication orders using turnaround time, on-time performance, priority, medication, and location metrics to identify workflow bottlenecks.
- Prior Authorization Access Dashboard: reviewed 700 cases across approvals, active backlog, payer variation, drug class, aging, appeals, and protected savings to recommend access-workflow improvements.

PROFESSIONAL EXPERIENCE

Inpatient Pharmacy Technician (CPHT)

Sep 2022 - Present

Norton Women & Children's Hospital | Louisville, KY

- Execute high-volume inpatient medication distribution and replenishment workflows while maintaining patient-safety standards, HIPAA compliance, controlled-substance procedures, and accurate documentation.
- Use Epic, Pyxis, and DoseEdge to review patient-specific medication information, verify order details, monitor exceptions, document follow-up, and escalate time-sensitive issues.
- Investigate discrepancies involving medication access, automated dispensing, inventory, and workflow timing; communicate findings to pharmacists, nurses, providers, and operational teams.
- Review utilization, refill quantities, stock levels, product availability, and recurring workflow barriers that may affect service continuity, documentation quality, charge capture, and reimbursement readiness.
- Support technician training, workflow standardization, turnaround-time awareness, and controlled-substance reconciliation through collaboration with pharmacy leadership and frontline staff.

Outpatient Pharmacy Technician

Nov 2019 - Aug 2022

Baptist Health | Louisville, KY

- Processed high-volume prescription claims, including coverage verification, reversals, rebills, and rejection resolution by correcting insurance and patient-profile data.
- Coordinated prior authorization workflows by gathering required information, communicating payer status, and partnering with patients, prescribers, and payers to reduce medication-access delays.
- Reviewed prescription, refill, coverage, and patient-access issues against payer requirements and medication information to support clean billing and accurate fulfillment.
- Maintained accurate demographics, insurance, allergy, and medication records to strengthen claim accuracy, compliant documentation, and continuity of care.
- Tracked recurring claim rejection patterns, documented resolution steps, and escalated complex trends to support process improvement and reduce repeat issues.

Pharmacy Technician

May 2017 - Aug 2019

Poole's Pharmacy Care | Greenville, KY

- Supported prescription processing, medication dispensing, inventory organization, data accuracy, OTC service, and customer-facing issue resolution in a community pharmacy.
- Maintained inventory accuracy and completed documentation for stock rotation, expired-product handling, and compliant pharmacy operations.

EDUCATION

University of Louisville

Expected May 2027

Bachelor of Science in Public Health | Minor in Healthcare Systems & Management
